STREET DIRECTORY

AND GUIDE TO

SUMMER RESIDENCES

Copyright, 1918, Sampson & Murdock Co., Boston, Mass.

(See also List of Summer Residents)

Giving the location of the Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect

From this list, the location of any number on a street, or the location of any public building, can be easily ascertained; as, for instance, wishing to know at what part of Broadway No. 220 is located, you look at Broadway, and find that Gould Street runs from 202, and Park Street from 226, showing that 220 would come on the left, between Gould and Park Streets

When a street crosses another, numbers (or ciphers) are given on both sides; but when it begins or ends at that street, the number is given only on the side at which it intersects. Ciphers are used where no numbers exist

*Indicates streets accepted. **Indicates part of street accepted

GENERAL INFORMATION

Keys of the Fire Alarm Boxes are placed with the residents in the immediate vicinity of the several boxes, also with all the policemen, and in several locations a Key is hanging on the side of the Box. Citizens will please inform themselves where the Keys are kept—signs giving the required information being placed on the Box

Key holders upon positive information of a fire in their immediate vicinity (nearer to that box than any other), may unlock the box, and IF THE SMALL GONG IN THE BOX IS NOT STRIKING, may pull the hook down ONCE AND LET GO.

Key holders are instructed that a box must never be pulled for a fire seen at a distance, or their key intrusted to boys or irresponsible persons

Persons giving an alarm are requested to remain at the box until the arrival of apparatus and then direct them to the locality of the fire

One stroke on the alarm bells, or two strokes, with an interval between them, indicates that the alarm is being tested

Two strokes preceding the pulling of any box will indicate that the box is pulled by the Chief Engineer to practice the department

The Chief Engineer will use the fire alarm to transmit his orders to the whole department or any detail thereof

The above Details, Signals, etc., will be observed as a General Order and will supersede all others on and after April 1st, 1907

The Home of Good Directories

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Our experience of seventy years—our reputation for accuracy, our large force of experienced help and our complete equipment for the work, all guarantee the best in directory compilation. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Put—"We are listed in the Directory" in all your advertising copy. addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly registered in all branches of its industry is wise.

Addressing the right people in the search for new business means a saving of Time, Postage, Labor, Guess Work, Stationery; and results in more profits to you. You want your mailing lists accurate,—That's the kind we make. Ask us to tell you about this branch of our business.

Ask Sampson & Murdock Co. about the City Directory, the book of many uses.
